Icon image: the image for the app on mobile and PC

The assets summary: on Steam store page configuration

Icon: apk extension, mobile app icon, for Android.

A few screenshots from the W DoBark game

Steam: W DoBark registered game name and design work

W DoBark

Steam: a capsule image on Steam page, for one of multiple view ports.

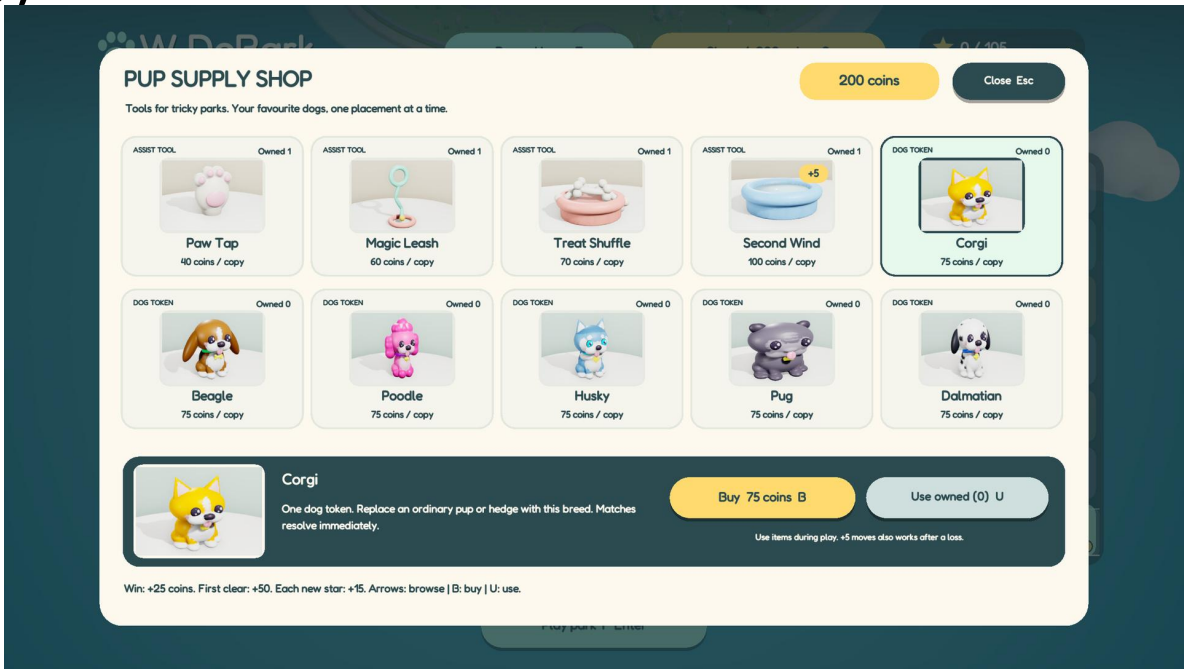

AI generated game background in 3D + AI generated game design work that is successfully registered on Steam

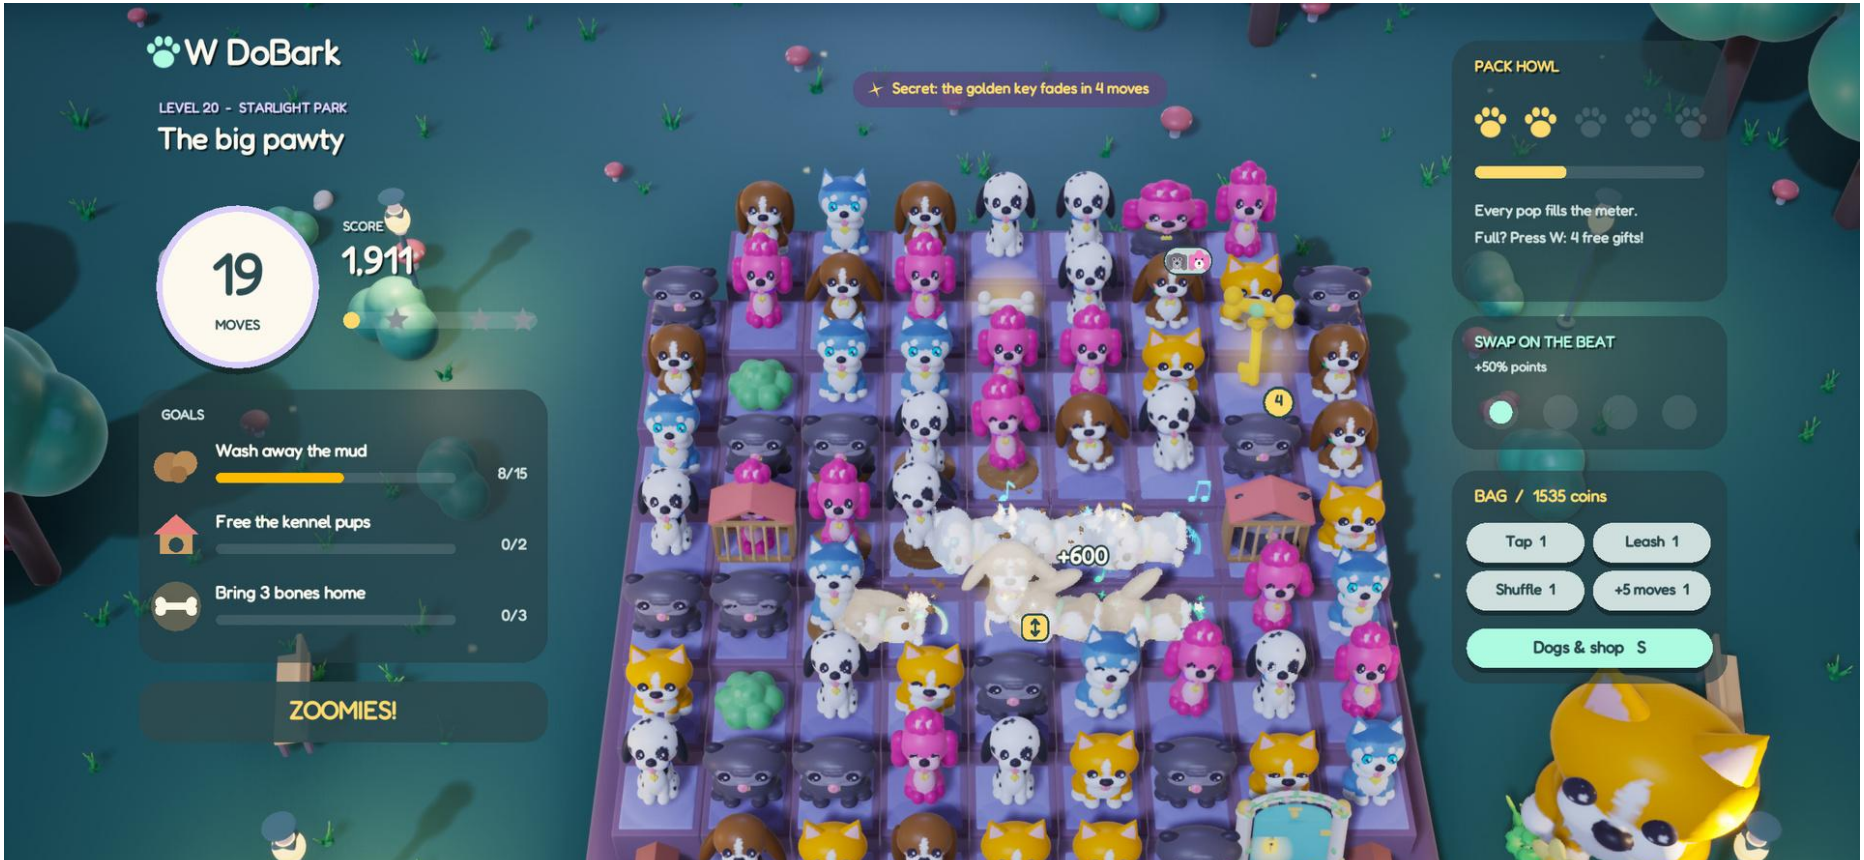

A failed screenshot by AI during the automatic asset generation.

Optimized store page for multiple platform distribution(a legacy version, which is still too small for the text reading on mobile)

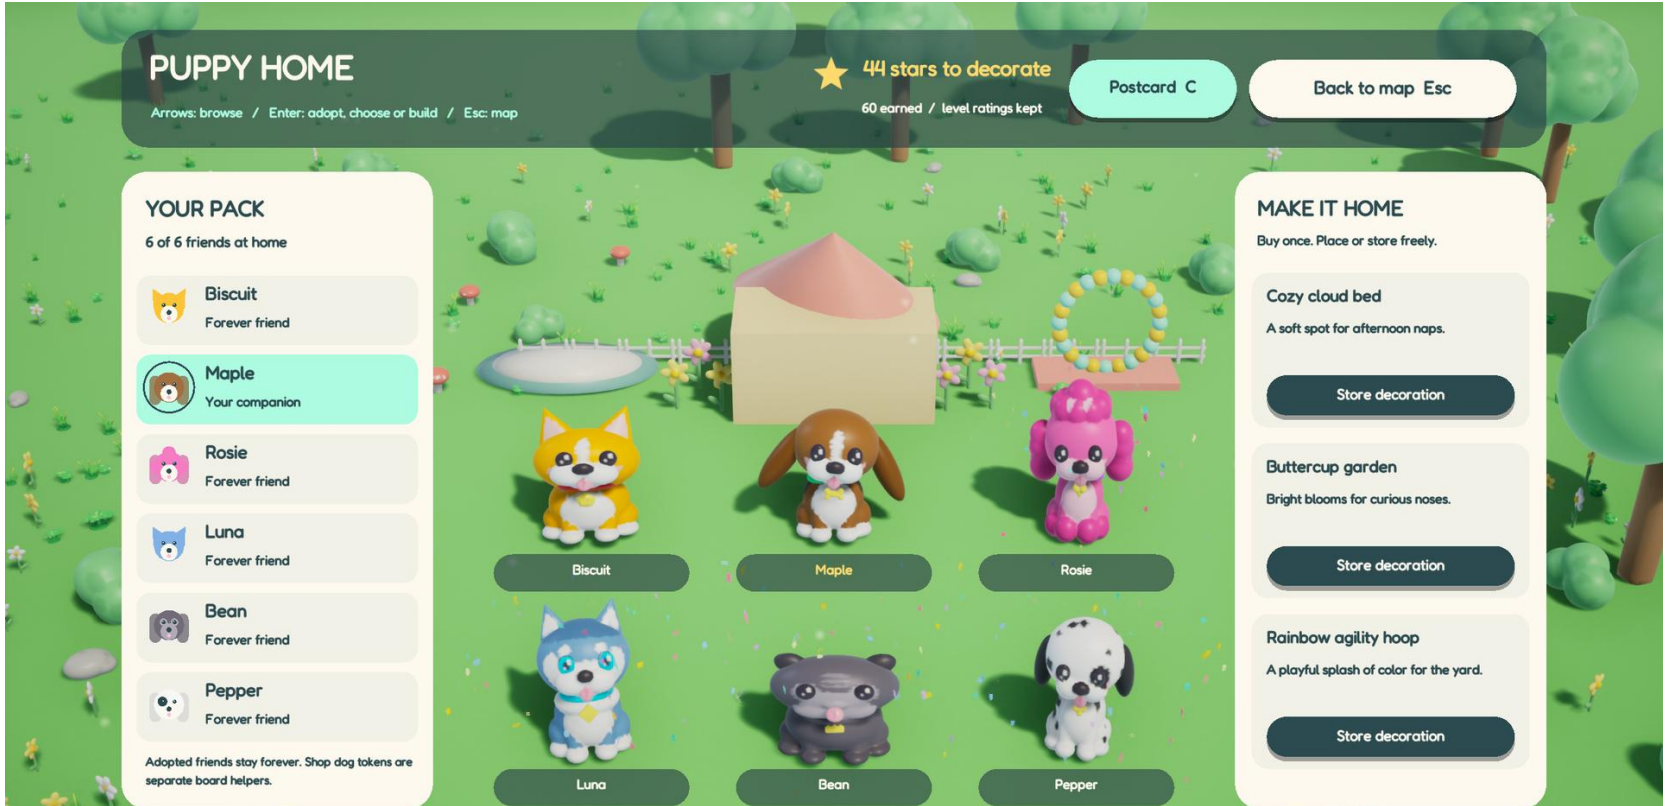

Game play, the day, and night are also part of the game design

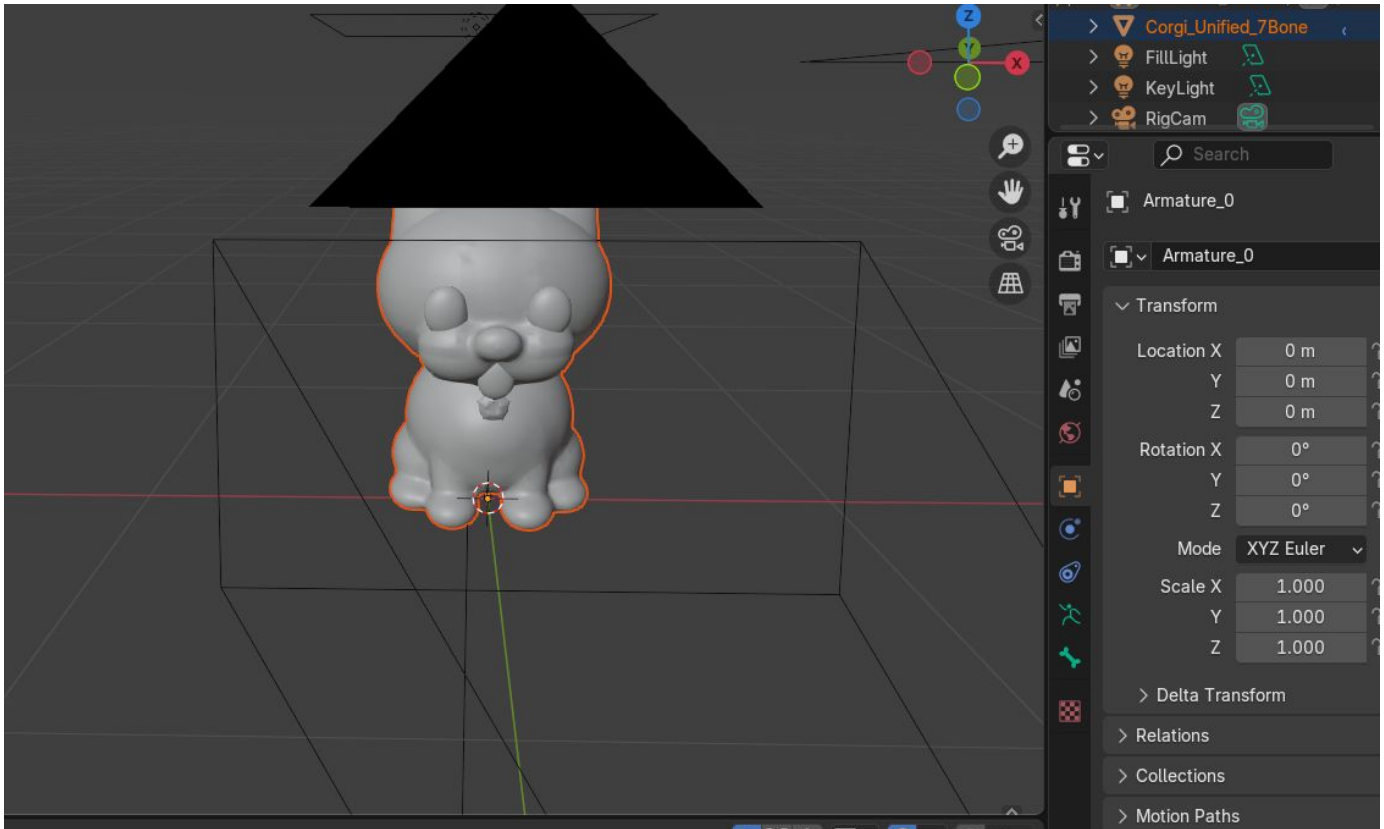

The weather theme is smoothly constructed in the game by AI

Dog Adoption Shelter: a good move, a good idea by AI

Screenshot in blender, the model and animation by AI.

All puppies are procedurally produced by AI with dedicated modeling pipeline, which makes “more generation” valid.
